Comprehensive detail, including definitions of ratings, performance criteria, and explanations of status, is available on www.ed.sc.gov and www.eoc.sc.gov as well as school and school district websites.

Printed versions are available from school districts upon request.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Redcliffe Elementary School had another successful year in educating students where best practices are paramount. Redcliffe serves 774 students in Pre-K through fifth grades. Faculty, staff and administration continue to hold high expectations for students in all areas. We work together with the community, parents, staff, and students to ensure success for all.

Redcliffe took part in continuous professional development focused on the Common Core Standards and the integration of content area reading across the curriculum. We also continued to focus on improving instruction to all students through minimal one hour daily math instruction using math stations and small group instruction. Certified tutors were used to provide small group instruction to meet the needs of students in both math and reading. Title 1 funds were used to hire teachers in order to maintain small class sizes, providing professional development for teachers through conferences, workshops, and literature, as well as enhancing parent involvement.

Teachers consistently used data results from the Palmetto Assessment of State Standards, Measures of Academic Progress, Dominie, and other formative classroom assessments along with the standards to drive instruction. Using data from a variety of assessments, we identified strengths and weaknesses of individual students and made instructional decisions for student achievement in all grades.

A school based curriculum coach helps our teachers implement best practices with a balanced literacy approach to reading and writing by providing on-site professional development and coaching. Reading and math interventionists work with small groups during the school day, serving students who need extra support in reading and/or math. This model allows students to receive a full class period of instruction from homeroom teachers as well as additional support needed to close the achievement gap.

Redcliffe Elementary School, in partnership with students, parents, and community members, is dedicated to building a solid foundation while developing responsible citizens to function and successfully contribute to others in today's society. We are making steady progress toward meeting rigorous goals and we are proud of the continued growth we see in our students. We look forward to another exciting school year full of opportunities for student learning and positive experiences!
